2 Afterwards he applied for a Microscope in connection with his Course in advanced Pathology. This was sanctioned in G/O No. 725-6 dt 17-7-13 and the Comptroller was asked to place a sum not exceeding Rs 30 at the disposal of Pattanna for purchasing the Microscope. He says that the cost of the Microscope is £ 34-17-0 and requests that the balance of £ 4-17-0 may be paid

3 Mr. Pattanna has nearly completed the Courses prescribed and states that in the ordinary circumstances he would be able to return to India by the end of 1913. But he wishes to take up a Course for the F R C S of Ireland and for his passage and for his return passage, he prays for an additional amount of £ 200 as per details given in his appln

BCM SW
8/12/13 Secy)

£ 10 XII 13

17

In the Dewans minute of 17 2 1913 (submission note) it was stated that the sum of £150 to proposed to be given will represent all the aid that will be given to him (the student) by the State And it was a substantial and amounting to Rs 2250/- A microscope costing £34 odd has also been given to him the article to be made over to Govt on his return - I think that considering all the circumstances of the case we may stop here Govt adhering to their intention of 7 Feby 1913 -

18 It is difficult to suggest a source for paying £100 to the scholar of sanctioned - The only source I can think of is the lump sum grant of 5 Lakhs under Miscellaneous, something out of which is still left -

NOTE—Contn sheet

GPB—60 000—7 11 13

Submitted to His Highness

These papers relate to an application from Mr D S Puttanna, who is now studying for Medicine in England, praying for the grant of an additional sum of £ 200 to enable him to take the F R C S course of Ireland and to pay for the return passage

2 As recommended in my note of the 17th February 1913, His Highness was pleased to sanction the grant of a scholarship of £ 150 to the applicant for specialising in Genito-Jrinary Surgery and Advanced Pathology

3 Some months later, the applicant having represented that a Microscope was absolutely necessary in connection with the practical course in Advanced Pathology, a sum of £ 30 was sanctioned in Government Order No 725-8/Edn 11-12 dated the 17tn July 1913 for providing himself with a microscope at Government cost on condition that he should return it in good condition to the Sanitary Commissioner after his studies are over

4 The applicant has now submitted a further representation to Government stating that he has taken the Diploma in Midwifery at Dublin and one in Tropical Medicine at Liverpool, that he expects to finish the special courses prescribed by Government in a few months and that he next intends to take up the F R C S course of Ireland which necessitates his stay there for some more months and praying for a further grant of £ 200 for this purpose and for the return passage, together with an extra £ 4/17 on account of the excess charge incurred by him for the microscope over the amount sanctioned by Government

5 The Senior Surgeon, who was unofficially

Page 4 of the office notes

consulted in the matter, states that the applicant's ambition to study for the F R C S course is undoubtedly laudable and that he is justified in entertaining such an ambition by his performances in England and that, having regard to this fact as well as to the satisfactory nature of the testimonials already obtained by the applicant, his prayer deserves sympathetic consideration at the hands of the Government

Page 6 of the office notes

6 The Financial Secretary thinks that, considering all the circumstances of the case, no further help need be given to the applicant

7 In view of the fact that the candidate was not selected by us but went abroad of his own accord and that the Government have already accorded the help referred to above, I thought it irregular to countenance the present application But as the State should give the utmost facilities to members of the backward communities in the matter of education, it may not perhaps be undeserved if an additional grant of £ 100 only is sanctioned to the applicant The candidate belongs to the "Devanga" or weaver community, which in point of education is among the more backward classes in the State

Page 7 of the office notes

8 The First Councillor agrees to the payment of the amount on condition that the applicant takes up the additional course referred to, and the Second Councillor concurs

9 Under these circumstances, I solicit the sanction of His Highness to the grant of £ 100, as a special case, to the applicant As pointed out by the Financial Secretary, the amount will be met out of the lump sum grant of 5 lakhs in the Budget under the head "Miscellaneous"

To

C S Balasundaram Iyer Esq B A

Secretary To Government,

Departments of Education &c

Bangalore

Esteemed Sir,

Orders Nos 272/112 and 1259/138 dated 23rd and 29th July respectively have just reached my hands and I hasten to tender my grateful thanks to our benign Government for their kindness in sanctioning the purchase and loan of a Microscope in connection with the Pathology course am now undergoing in London In pursuance of the above orders, I have just received payment of £30 from Messrs Coutts & Co and have purchased a Microscope for £34-17-0 under my Professor's advice and enclose a Bill of Cost for reference with a prayer that the extra £4-17-0 I have incurred over and above the sum already allotted may kindly be sanctioned I hope to be able to make good use of the instrument in equipping myself with the best and most up-to-date instruction during my stay here and shall return the same in good order to the Sanitary Commissioner in Mysore when I come back to my native country

2 I beg to state for the information of Government that after taking the Diploma in Midwifery at Dublin and the Diploma in Tropical Medicine at Liverpool, I have taken to the study of the special courses prescribed by Government and am pursuing the same in some of the best Institutions in London as detailed below:-

	Advanced Bacteriology	at the St Bartholomew's Hospital Medical College
2	Advanced Pathological Technique	the Middlesex Hospital Medical College
3	Advanced Chemical Pathology	the London Hospital Medical College
4	Pathological Histology	at the Guy's Hospital Medical College.

5 The Clinics at the St, Peter's Hospital for Stone and Genito-Urinary Disorders

6. The Clinics at the London Lock Hospital

And with a view to extend the scope of practical instruction, which is very important, I have taken the place of a Clinical Assistant at the All Saints Hospital for Genito-Urinary Diseases and at the Genito-Urinary Department of the Guy's Hospital I had the rare chance of attending the great International Medical Congress held in London recently after a period of 32 years and it was most instructive to follow and note the recent developments in Pathology, Urology and some other branches of the science of healir as expounded by the Fathers of Medicine

3 I hope to be able to finish these special courses in a few months and in the ordinary circumstances, I am due to return to my native country about the end of the current calendar year But as it is very rarely that one is enabled to leave one's native home to a foreign country as I have ventured to do amidst adverse circumstances it is my ambition to take advantage of the rare chance that has fallen to my lot by competing for the "Fellowship of the Royal College of Surgeons" (F R C S.) of Ireland. The continuous success I have been fortunate enough to meet with in all my attempts after landing in this country and the special help that the Government of His Highness the Maharaja of Mysore have graciously been pleased to extend to me from time to time have encouraged me to form this ambition I am fully aware that the F R C S is not an easy course But by a diligent application I daresay I can hope to surmount any difficulty that may present itself in regard to the studies pertaining to the course There is, however, a greater difficulty to contend with in this connection and that is the question of funds which is a most important factor and for this I must necessarily look to some help from outside

4. The bare requirements for finishing the F R C S course of Ireland (including the amount of Return Passage Money

which is usually granted to all Foreign Scholarship holders in Mysore) are -

Examination Fee	£ 40
Fee for the courses	£ 15
Cost of living for 9 months after finishing the special courses already prescribed by Government.	£ 90
Books	£ 5
Return Passage Money	£ 50
Total	£ 200

I have already invested nearly £300 from private sources for my education here and I scarcely find it possible to tap the same sources again I have therefore no alternative but to approach the benign Government of His Highness the Maharaja of Mysore with this humble memorial for help I need scarcely say that I would deem it a great boon and a special act of grace if the Government are graciously pleased to consider my memorial favourably

5 As far as I am aware, there are only two or three officers in the Mysore Medical Service that hold the Fellowship of one or other of the Royal College of Surgeons and I venture to think that it would be no waste of public funds if some further help as detailed above is extended to me, as I would thereby be enabled to add to the number of medical men with F R C S qualification available for the service of my native country

6 It has always been the liberal policy of the benign Government of His Highness the Maharaja of Mysore to extend all possible encouragement to men desirous of undergoing such foreign training as may be of use in advancing the country's interests and I humbly pray that in pursuance of this policy, the Government may be graciously pleased to extend their characteristic sympathy to a poor man like myself and kindly grant me the additional sum prayed for in connection with the F R C S course

lth feelings of gratitude and assurances of serv
high regard

I beg to remain,

Esteemed Sir,

Your most obedient and Grateful Servant,

D S Puttanna
